

+St. Frances of Rome, Religious+

March 9, 2020

Dear Parents/Guardians and Students in Practicum,

The health and safety of our students and staff is our highest priority. The ongoing health concerns involving the coronavirus are an issue that we continue to monitor and to inform our decisions on proactive steps to protect our students and staff members.

Effective March 10, 2020, we are suspending student participation in health related sites (i.e. hospitals, clinics, dentists, etc.) until further notice. We recognize the disappointment this may cause some of our students. We assure you that we will take every step to provide those affected students with comparable sites later in the year, situation depending, including shadowing our own Health Science Integration and Exploration Course. Furthermore, Ms. Walaszek will work with those students who wish to obtain different placements.

If you have any questions or concerns, please feel free to contact us.

As always, we ask that you keep those impacted by this virus in your prayers.

In Charity and Truth,

Sister Donna Marie Wolowicki, CR
