Dear Resurrection Community,

I hope that your summer is off to a great and relaxing start! We have important information that we wish to share with you as we prepare to welcome you and your family to the 2021-2022 school year. Each new academic year brings the same mixture of ideas: hope in a fresh start, renewal of established commitments, and confidence in the possibility of the future.

In my twenty-plus years in Catholic education, from my days in high school to my current experience as the school president, I have seen the transformative power of the Gospel in all aspects of life, especially when it takes hold in the community. Catholic schools are a community and at Res, our focus is on the holistic development of the God-given talents of our young women. In a world that is often chaotic, broken, and seemingly directionless, our refuge is in Christ and in His presence among us in the various relationships that we experience. It is from that platform that we must operate.

As parents, our Church teaches us that you are the first and primary teachers of your daughters. As your principal, I am honored and humbled that you entrust that education to us, and I assure you that the responsibility that comes with your trust is paramount in all of the decisions made by my office, administrators, and faculty. I eagerly look forward to working together to help our girls to be all that God has created them to be. I ask that you continue to hold our community in prayer as we undertake the collective vocation of Catholic education! I look forward to meeting each of you in a variety of ways available to us in the upcoming weeks and months.
